

# CONSTRUCTION NOTICE

## Good Hope Road Water Main Extension

Miller Pipeline will begin water main installation on Monday, October 7, 2024. Good Hope Road, from Main Street to Town Line Road, will be closed to through traffic starting Thursday, October 3rd, and will remain closed until early December. The below map shows the extent of the water main installation, the road closure, and the detour. The detour route is to use Main Street (CTH F) and Townline Road (CTH V). The Bugline Trail crossing at Good Hope Road will also be closed.

Miller Pipeline is responsible to keep access open to property owners along the construction route. Property owners with access concerns can coordinate directly with the Miller Pipeline or with Strand Engineering.

Should you have any construction questions, please feel free to contact:
